

This exciting new web service allows anyone, regardless of any design skill level to customise an individual one off document presentation cover or to create the whole company's range of bespoke binding covers.

www.printedbindingcovers.co.uk

An impressive, desirable, high quality printed product despatched to your office within 36 hours.

This product allows any company, whatever its size, full control over the complete customisation of all their document presentation requirements; from run lengths of just one document cover upwards.

SOFT COVERS

Customised Soft Front & Back Covers

- matt or gloss finish
- A3, A4, A5
- 300 gsm

Standard loose leaf cover for traditional wire, coil and plastic comb binding. The most common style of cover, separate front and backs, opens easily back to back. Can be fully personalised to you or your clients needs.

High quality loose covers; and full wrap around covers (hard and soft) available in A5, A4 or A3 formats.

Would you like every document that leaves your company to be prestigiously corporately branded? Tenders, reports, pitches, accounts, quotes, brochures, photo books?

Do you ever need to tailor a document to a client or customers specific needs?

HARD COVERS

Customised Hard Front & Back Covers

- matt or gloss finish
- A3, A4, A5
- 2.2 mm thickness

Standard hard cover for traditional wire, coil and plastic comb binding. High quality stylish cover, separate front and backs, opens easily back to back. Can be fully personalised to you or your clients needs.

Customised Soft Wrap-Around Covers

- matt or gloss finish
- A4 & A5
- 6 spine sizes
(bind from a few sheets up to 340 sheets)
- 300 gsm

Partially hidden wire exposed on the back cover allows document to open easily back to back. Spine enables printing for easy document identification whilst also protecting the wire element and your document. Can be fully personalised to you or your clients needs.

Customised Hard Wrap-Around Covers

- matt or gloss finish
- A4 & A5
- 6 spine sizes
(bind from a few sheets up to 340 sheets)
- 2.4 mm thickness
- self adhesive glue strip

High quality stylish cover completely hiding the wire element using a special technology to hold the binding securely within the case, lays flat and opens easily back to back. Can be fully personalised to you or your clients needs.

Customised Thermal Binding Covers

- matt or gloss finish
- A4 & A5
- 300gsm thickness

Soft wrap around thermal binding cover with a separate glue strip that works on any thermal binding machine. Can be fully personalised to you or your clients needs.
